

NOTATIONS

On page 15 of the December issue of HONOLULU you print a reproduction of Theodore Wores' *The Lei Maker* now on display at the Bishop Museum. It features the new frame commissioned by doctors Ben and A. Jess Shenson, lenders of the painting.

I thank you for the kind mention of my name as designer. However, the finished work being a true collaboration between myself and the cabinet-maker, Alan Wilkinson of the Artists Guild, I would appreciate your mentioning his name together with mine.
